# FOREWORD.

LUXURIES of the past become NECESSITIES of the present. To-day, a directory is a household, and a business necessity. The householders call for it and the business man must have it up-to-date and reliable. Wise arrangements and mechanical execution add to the value of the book. The business man who does not own a directory loses time and money for want of immediate information as to directory facts.

In this the 24th issue of the BROOKLINE DIRECTORY we have aimed to give our patrons the BEST that modern enterprise and skill can produce. Our canvass has been thorough. Many streets have recently been renumbered, the numbers given correspond to those allotted by the town authorities.

Respectfully,

W. A. GREENOUGH & CO.

*22 Signal for no school, 4 rounds. Also, a special box for Town Hall except between the hours of 7.45 and 8.30 a. m.

†Special boxes.

### REGULATIONS CONCERNING FIRE ALARMS.

First alarm to be given by striking four rounds on all bells.

Second alarm to be given by striking three blows on all bells.

Third alarm to be given by striking ten blows on all bells.

1 One stroke at 12 M. Washington time, and 9 p. m. every evening.

1–1 Two strokes slow for fire out, and all apparatus under way will return to quarters.

### INFORMATION FOR YOU.

The key to your nearest fire alarm box, you will find in small box attached to door of fire box.

To give an alarm, break glass in front of small box, turn the key you will find there, open the door to fire box, pull down the hook in the box once (without jerking) and let go. Wait a few seconds and if you hear no clicking of the wheels, pull again (no clicking, no alarm); if then no movement is heard, go to the nearest box and try, after which, report immediately to the superintendent or at the Station House, the box out of order.

Before ringing an alarm be sure that a fire actually exists.

Do not give an alarm for a fire seen at a distance, as all needless alarms are an expense to the town, and should be avoided as much as possible.

All persons giving fire alarms are requested to remain by the box, if possible, to direct the fireman to the fire. Each box contains a small bell, which, if heard before you pull, indicates that the alarm has been previously given.

After the first alarm has been rung in, all other alarms or signals are given only by the engineers.

Tampering with any of the apparatus connected with the Fire Alarm Telegraph will be prosecuted to the full extent of the law.

### SPECIAL NOTICE.

The fact that an alarm box is located near their residence and where the key is kept, should be known to all persons, both male and female; and the simple manner of giving an alarm in case of fire should be a matter of common education. The chief recommends to all persons who may see this notice, that they make all necessary inquiries to enable them, in case of need, either to pull an alarm in, or direct others to do so. Time saved in this way may prevent a conflagration.

GEORGE H. JOHNSON, Chief of Dept.

## GENERAL INSTRUCTIONS.

See that your letters are sealed and stamped. Do not abbreviate the address. Always use street address or box number when convenient.

"Visitors" or "transients" should have mail addressed "in care of," etc.

Place your address on upper left hand corner of envelope, and it will be returned if undelivered.

Place your stamp in upper right hand corner. Nothing except an address label can be attached or pasted on postal card, except at letter rates.

Postmasters are permitted to read postal cards, to prohibit the mailing of obscene literature. Second, third and fourth class matter must not be sealed against inspection.

There is no limit of weight to first or second class matter or single books; all other matter is limited to four pounds.

Liquids can be mailed only in wooden or metal boxes.

Persons sending postal cards and who write upon the address side of them "in haste," or other words unconnected with their delivery, subject them to letter postage, and they are held as unmailable.
